

### **Listservs Available for Medicare Fee-for-Service (FFS) Providers:**

Please click on the appropriate links below to subscribe to the listservs that most fit your needs. Most of the following listservs are currently maintained by the National Institutes of Health (NIH). The NIH Listserv facility is an e-mail-based server that allows users to create, manage, and control electronic "mailing lists" on a network.

1. From the listserv page, scroll to the right under "Options," select "Subscribe or Unsubscribe." Messages are sent from [CMSProviderResource@cms.hhs.gov](mailto:CMSProviderResource@cms.hhs.gov). You can also view the archives of messages sent.
